

Friday, December 10, 2021
Noon – 1 p.m.

“Should We Be Using Plasma to Resuscitate the Endothelium During Shock?”

Presenter:

Alan Frankfurt, M.D.

Anesthesiologist

Texas Health Presbyterian Hospital Dallas, Dallas, Texas

Location: virtual meeting via Microsoft TEAMS

Join on your computer or mobile device [Click here to join the meeting](#)
Or call in (audio only) **682-273-0674 ; Conference ID: 225 655 243#**

Objectives: Upon completion of this activity, the participants should be able to:

- Discuss how the term “blood” encompasses blood as a liquid, its relationship with endothelium and how it should be appreciated as an organ
- Examine the role of blood and the endothelium in maintaining physiologic homeostasis
- Discuss that blood failure may occur in the face of sepsis or hypovolemic shock similar to heart or renal failure
- Recognize the multidisciplinary healthcare team’s potential intervention and resuscitative methods which may address and reverse blood failure in the clinical setting

Program Director: Brian Tibbs, M.D. FACS, *trauma medical director, Texas Health Presbyterian Hospital Dallas, Dallas, Texas*

Target Audience: This interprofessional activity is designed for physicians, nurses and allied health professionals in the following specialties: emergency medicine, surgery (general and trauma), orthopedics, radiology, internal medicine, family medicine and pediatrics

Format: Didactic lecture with question and answer session

Accreditation:

In support of improving patient care, Texas Health Resources is jointly accredited by the Accreditation Council for Continuing Medical Education (ACCME), the Accreditation Council for Pharmacy Education (ACPE), and the American Nurses Credentialing Center (ANCC), to provide continuing education for the healthcare team.

JOINTLY ACCREDITED PROVIDER™
INTERPROFESSIONAL CONTINUING EDUCATION

Designation of Credit:
