

Thursday, February 25, 2021
Noon – 1 p.m.

“Development of the Sensory Systems in the Intrauterine vs Extrauterine Environment”

Presenter:

Catrina Mazzella, OT, CNT

*Clinic Specialist – Neonatal Therapy (NICU/SCN)
Texas Health Presbyterian Hospital Dallas, Dallas, Texas*

Location: ****This conference will be held virtually via MICROSOFT TEAMS****

Click here to join on your computer or device [Join Microsoft Teams Meeting](#)
Call in by dialing [682-273-0674](tel:682-273-0674); Conference ID: 508 941 68#

Objectives: Upon completion of this activity, the participants should be able to:

- Describe normal fetal development of the brain and sensory systems
- Explain the impact of the extrauterine environment on the development of the brain and sensory systems
- Identify components of the neonatal NICU experience that could be used to support the development of the immature brain and sensory systems
- Discuss the supportive roles that the multidisciplinary team plays in identifying, treating and counseling families dealing with immature brain and sensory systems in the neonate patient

Program Director: *Christina Chan, M.D., program director, department of pediatrics, UT Southwestern Medical Center and medical director of the NICU at Texas Health Presbyterian Hospital Dallas, Dallas, Texas*

Target Audience: This interprofessional activity is designed for physicians, nurses and respiratory therapists in neonatology, pediatrics and obstetrics.

Format: Didactic lecture with question and answer session

Accreditation:

In support of improving patient care, Texas Health Resources is jointly accredited by the Accreditation Council for Continuing Medical Education (ACCME), the Accreditation Council for Pharmacy Education (ACPE), and the American Nurses Credentialing Center (ANCC), to provide continuing education for the healthcare team.

JOINTLY ACCREDITED PROVIDER™
INTERPROFESSIONAL CONTINUING EDUCATION
