Objectives: Upon completion of this activity, the participants should be able to:

- Review how depression, anxiety, trauma, grief, loss and substance abuse disorders present in primary care settings
- Review scales and assessments that can aid in identifying behavioral health needs
- Discuss trends in behavioral health needs during the pandemic
- Discuss patient treatment and care roles of therapists and members of the interdisciplinary team

Program Director: Dustin Webb, LCSW, *administrator, department of psychiatry, Texas Health Presbyterian Hospital Dallas, Dallas, Texas*

Target Audience: This interprofessional activity is designed for psychiatrists, psychologists, social workers, nurses, occupational therapists, physical therapists, recreational therapists, mental health technicians, clergy, administrators and other interested persons

Format: Didactic lecture with question and answer session

Accreditation:

In support of improving patient care, Texas Health Resources is jointly accredited by the Accreditation Council for Continuing Medical Education (ACCME), the Accreditation Council for Pharmacy Education (ACPE), and the American Nurses Credentialing Center (ANCC) to provide continuing education for the healthcare team.

This program complies with the continuing education statutes and rules of the Texas Behavioral Health Executive Council.

JOINTLY ACCREDITED PROVIDER™
