**Or call in (audio only)** [682-273-0674](tel:682-273-0674) Phone Conference ID: 510 751 571#

**Objectives:** Upon completion of this activity, the participants should be able to:

- Define the role of Maternal-Fetal Medicine specialists in a team approach to OB critical care
- Identify risk factors for diabetic ketoacidosis
- Recognize pregnancy-specific physiology that impacts diabetes mellitus
- Describe clinical and laboratory findings associated with diabetic ketoacidosis
- Define critical aspects of maternal care including insulin and electrolyte management
- Explain the impact of diabetic ketoacidosis on the fetus including antenatal testing

**Program Director:** Deana Hussamy, M.D., maternal and fetal medicine, Texas Health Harris Methodist Hospital Alliance, Fort Worth, Texas

**Target Audience:** This interprofessional activity is designed for physicians, nurses and respiratory therapists involved in obstetric health.

**Format:** Didactic lecture with question and answer session

**Accreditation:**

In support of improving patient care, Texas Health Resources is jointly accredited by the Accreditation Council for Continuing Medical Education (ACCME), the Accreditation Council for Pharmacy Education (ACPE), and the American Nurses Credentialing Center (ANCC), to provide continuing education for the healthcare team.

JOINTLY ACCREDITED PROVIDER™  
INTERPROFESSIONAL CONTINUING EDUCATION
