Program Chair: Stephen Hurlbut, M.D.

Objectives: Upon completion of this activity, the participants should be able to:

- Explain the meaning and significance of patient autonomy in the context of medical ethics and patient right to decision-making regarding care
- Discuss the importance of interprofessional communication regarding patient care
- Explore the ethical decision-making process when resource allocation is limited during the current pandemic

Target Audience: This interprofessional activity is designed for physicians, nurses, social workers and allied health professionals at Texas Health HEB

Format: Case presentation and discussion

Accreditation: In support of improving patient care, Texas Health Resources is jointly accredited by the Accreditation Council for Continuing Medical Education (ACCME), the Accreditation Council for Pharmacy Education (ACPE), and the American Nurses Credentialing Center (ANCC), to provide continuing education for the healthcare team.

This course complies with the continuing education statutes and rules of the Texas Behavioral Health Executive Council.

Designation of Credit:

Physicians: The Texas Health Resources designates this live activity for a maximum of 1 *AMA PRA Category 1 Credit*[™]. Physicians should claim only the credit commensurate with the extent of their participation in the activity.

Nurses: One (1) contact hour will be provided for nursing

Social Workers: One (1) CE clock hour will be provided for Social Workers and Licensed Professional Counselors

Ethics & Professional Responsibility: This course has been designated by Texas Health Resources for 1 credit of education in medical ethics and/or professional responsibility.

Doctors on the medical staff practice independently and are not employees or agents of the hospitals or Texas Health Resources.
