ETHICS CE

June 1, 2022 "Who Should Be Dialyzed? Patient Selection Resurfaces as a Major Ethical Issue in Dialysis"

Alvin H. Moss, M.D., FACP, FAAHPM

Director, West Virginia University Center (WVU) for Health Ethics and Law
West Virginia University Health Sciences Center – Morgantown, West Virginia

Objectives:

- Identify prognostic factors associated with poor dialysis outcomes for patients with kidney disease.
 - Discuss the clinical practice guideline recommendation for shared decision-making.
- Recognize that starting dialysis may not improve survival or symptom burden compared to non-dialysis.
 - Review default options in medicine and consequences for patients with kidney failure.
- Identify changes needed in the care of patients with kidney disease to make it more patient-centered.

June 8, 2022

"Lupus Nephritis in 2022"

Ramesh Saxena, M.D., Ph.D., FASN

Professor, Division of Nephrology, Department of Internal Medicine
UT Southwestern Medical Center – Dallas, Texas

Objectives:

- Describe key approaches in diagnosing lupus nephritis.
 - Review evidence-based approaches in treatment of lupus nephritis.
- Discuss and utilize strategies to effectively assess and co-manage patients with lupus nephritis.
 - Identify and monitor the patient for comorbidities and side effects of treatment.

June 15, 2022

****Pre-recorded Presentation | Original Date: June 9, 2021****

"Acute Kidney Injury (AKI): Risk-Stratification, Outcomes and Recovery"

Javier A. Neyra, M.D., MSCS

Assistant Professor, Internal Medicine – Nephrology, University of Kentucky College of Medicine – Lexington, Kentucky

Objectives:

- Discuss the utility of AKI risk-stratification.
 - Review outcomes associated with AKI.
- Discuss heterogeneity of AKI recovery and the value of post-AKI follow-up.

June 22, 2022

"What's New & What's Hot in Kidney Transplantation"

Bernard V. Fischbach, M.D., CCRP

Nephrology & Transplant, Dallas Nephrology Associates – Dallas, Texas

Objectives:

- Review changes to kidney allocation in the United States.
 - Discuss new diagnostic testing for the kidney transplant recipient.
- Discuss the tenets of immunosuppressive therapy and newer immunosuppressive agents.
