Case Presentations

Time: 12 p.m. – 1 p.m. or 5 p.m. – 6 p.m.

Location: Texas Health Presbyterian Hospital Dallas, Perot Meadows B&C and available virtually via Microsoft Teams

Objectives: Upon completion of this activity, the participants should be able to:

- Accurately assess fetal monitoring tracings using NICHD terminology
- Identify risk factors associated with fetal acidemia
- Describe nursing and medical interventions to promote fetal well-being
- Describe effective communication among health care providers regarding fetal monitoring

Program Director: Brian Rinehart, M.D., *maternal and fetal medicine physician*, Texas Health Presbyterian Hospital Dallas – Dallas, Texas

Target Audience: This interprofessional activity is designed for physicians and nurses involved in obstetric health. ***Nurses must attend at least 2 reviews each year***

Format: Review electronic fetal monitoring strips with question-and-answer session

Accreditation:

In support of improving patient care, Texas Health Resources is jointly accredited by the Accreditation Council for Continuing Medical Education (ACCME), the Accreditation Council for Pharmacy Education (ACPE), and the American Nurses Credentialing Center (ANCC), to provide continuing education for the healthcare team.

Designation of Credit:

Physicians: The Texas Health Resources designates this live activity for a maximum of 1 *AMA PRA Category 1 Credit*[™]. Physicians should claim only the credit commensurate with the extent of their participation in the activity.

Nurses: 1 contact hour will be provided for nursing.
