In Person Presenter

MS TEAMS Presenter

March 1, 2023 “Cardiogenic Shock: A Team Based Approach”

Jawwad Yusuf, M.D., FACC, FACP, MBA
Interventional Cardiology, Texas Health Heart and Vascular Specialists
Texas Health Presbyterian Hospital Dallas – Dallas, Texas

Objectives:

- Identify the history and evolution of cardiogenic shock management.
- Discuss the Society for Cardiovascular Angiography and Interventions (SCAI) Shock Classification.
 - Review types of temporary mechanical circulatory support.
 - Identify survival outcomes for cardiogenic shock.
- Describe the role of a team approach in managing patients with cardiogenic shock.

March 8, 2023

“Cardiorenal Syndrome (CRS) and Diuretic Resistance in Heart Failure: From Challenging Dogma to Advancements”

Justin L. Grodin, MD, MPH, FACC, FHFSA
Medical Director, Internal Medicine Clinical Trials Unit; Co-director, Multidisciplinary Amyloidosis Program
Associate Professor of Medicine, UT Southwestern Medical Center – Dallas, Texas

Objectives:

- Review the pathophysiologic contributions of acute CRS.
- Discuss the importance of the adequacy and effectiveness of diuretic therapy.
- Discuss novel approaches on the horizon to treat patients with acute CRS.

March 15, 2023

CANCELLED

March 22, 2023

“Myocardial Infarction with Non-Obstructive Coronary Arteries (MINOCA): Basics and Update on Management”

Rina Mauricio, M.D.

Assistant Professor of Medicine, Cardiology Division, Department of Internal Medicine
UT Southwestern Medical Center – Dallas, Texas

Objectives:

- Discuss sex-based differences in ACS presentation, management, and outcomes.
 - Review the recommended diagnostic algorithm for MINOCA.
- Identify additional imaging modalities that are useful in the work-up of MINOCA patients.

March 29, 2023

“Clinical Utility and Implementation of High Sensitivity Cardiac Troponin Assays in the Emergency Department”

Rebecca Vigen, M.D.

Assistant Professor of Medicine, Cardiology Division, Department of Internal Medicine
UT Southwestern Medical Center – Dallas, Texas

Objectives:

- Identify the differences between conventional and high-sensitivity troponin assays and the advantages of using high-sensitivity troponin assays for the evaluation of patients with chest pain.
- Discuss the advantages and disadvantages of different high-sensitivity troponin protocols.

Doctors on the medical staffs practice independently and are not employees or agents of Texas Health hospitals or Texas Health Resources. © 2023 Texas Health Resources.
