Amanda S. Evans, M.D.

Associate Professor, Pediatric Infectious Diseases
UT Southwestern Medical Center – Dallas, Texas

**“Congenital Cytomegalovirus (CMV):
Targeted vs. Universal Screening in Newborns”**

Objectives:

- Understand the epidemiology and transmission of congenital CMV, including the impact of CMV infection on newborns.
- Identify the presentation of congenital CMV and long-term effects of congenital CMV in newborns, including neurodevelopmental outcomes and sensorineural hearing loss.
- Describe the diagnostic methods and screening methods for congenital CMV, including targeted vs. universal screening approaches.
- Discuss the management of congenital CMV during infancy, including roles and communication with the neonatal health care team.

Target Audience: This interprofessional activity is designed for physicians and nurses in neonatology, pediatrics and obstetrics. We also invite respiratory therapists to attend.

Format: Didactic lecture with question-and-answer session

Accreditation:

In support of improving patient care, Texas Health Resources is jointly accredited by the Accreditation Council for Continuing Medical Education (ACCME), the Accreditation Council for Pharmacy Education (ACPE), and the American Nurses Credentialing Center (ANCC), to provide continuing education for the healthcare team.

JOINTLY ACCREDITED PROVIDER™
INTERPROFESSIONAL CONTINUING EDUCATION

Designation of Credit:

Physicians: The Texas Health Resources designates this live activity for a maximum of 1 *AMA PRA Category Credit™*. Physicians should claim only the credit commensurate with the extent of their participation in the activity.

Nurses: 1 contact hour will be provided for nursing.

Additional Information: For more information, please email THRJA@TexasHealth.org or access to other CE activities visit our website <https://ce.texashealth.org>.
