---

**Objectives:** Upon completion of this activity, the participants should be able to:

- Describe current outcomes of neonatal cardiac surgical procedures
- Summarize surgical treatment options for heart failure in neonates and infants
- Evaluate the contribution of subspecialty services including pulmonary hypertension management, ventricular assist devices, and others to improving outcomes in children
- Discuss how to design a system to deliver better care for children during cardiac surgery
- Explain the benefits of multidisciplinary collaboration in surgical planning and quality improvement

**Target Audience:** This interprofessional activity is designed for physicians and nurses. We also invite allied health professionals to attend.

**Format:** Didactic lecture with question and answer session

**Accreditation:**

In support of improving patient care, Texas Health Resources is jointly accredited by the Accreditation Council for Continuing Medical Education (ACCME), the Accreditation Council for Pharmacy Education (ACPE), and the American Nurses Credentialing Center (ANCC), to provide continuing education for the healthcare team.

JOINTLY ACCREDITED PROVIDER™  
INTERPROFESSIONAL CONTINUING EDUCATION

**Designation of Credit:**

**Physicians:** The Texas Health Resources designates this live activity for a maximum of 1 *AMA PRA Category 1 Credit*™. Physicians should claim only the credit commensurate with the extent of their participation in the activity.

**Nurses:** 1 contact hour will be provided for nursing
