

Texas Health Fort Worth | Level 1 Trauma Center presents the
27th Annual Trauma Conference

ROAD TO DISASTER

Wednesday, April 1, 2026

7:15 a.m. to 4 p.m.

River Ranch Stockyards

500 NE 23rd Street, Fort Worth, TX 76164

A message from the Trauma Program Medical Director

It is my privilege to welcome you to the 27th annual Texas Health Fort Worth Trauma Conference. We have been working together with our providers and community to advance the care of our trauma patients via this conference and beyond.

Our goal with this conference is to present information that you can readily take back and apply in your everyday practice. Moreover, we charge our speakers to base their recommendations on the latest and best evidenced based data.

Trauma is never expected but can be anticipated and planned for. We look forward to hearing from our dynamic speakers with the focus this year on disasters and disaster planning. Whether natural or man-made, there are lessons to be learned from prior calamities and in anticipation of future events.

Once again, welcome and thank you for joining us for this year's conference.

Mark Tucker

Mark Tucker, MD, FACS

Texas Health Harris Methodist Fort Worth

Conference Program Director

Trauma Medical Director

Associate Medical Director, Emergency General

Surgery Core Faculty,

General Surgery Residency Program

TCU School of Medicine

Assistant Professor of Surgery

Agenda

W. Nim Kidd

2:45 p.m. *From Chaos to Coordination: Planning for Patients and Providers*
Stephan Epley

3:45 p.m. Closing Remarks & Adjournment
Ashleigh Fontenot, M.D., FACS

8:15 a.m.

Lessons Learned from October 1, 2017, Las Vegas Shooting and Preparing for the Unpredictable

Opening Keynote Speaker:

**Deborah Kuhls, M.D., FACS,
FCCM, FRCST (Hon)**

Associate Dean for Research
Professor of Surgery
Chief, Acute Care Surgery Division
AAMC Representative to Women in Medicine
Kirk Kerkorian School of Medicine at UNLV
University of Nevada, Las Vegas
Chief of Trauma
University Medical Center of Southern Nevada
Las Vegas, Nevada

OBJECTIVES:

Upon completion of this educational activity, participants should be able to:

- Discuss lessons learned from mass shooting event
- Discuss national strategy of preparedness for civilian and military events
- Describe how the trauma team can be prepared to mitigate injury and death from mass casualty events

9:15 a.m.

Train Hard Now, Bleed Less Later: The Road to Mass Casualty Incident Preparedness

Presenter:

Jennifer Grant, M.D., FACS

Trauma and Acute Care Surgeon
Texas Health Harris Methodist Hospital Fort Worth
Fort Worth, Texas

OBJECTIVES:

Upon completion of this educational activity, participants should be able to:

- Discuss interdisciplinary roles and coordination strategies essential for effective mass casualty incident (MCI) response
- Recognize how different mechanisms of injury, including blunt and penetrating trauma, shape triage, resource needs, and patient outcomes during MCIs
- Apply key principles of preparedness and trauma care planning to optimize hospital and prehospital performance during diverse MCI scenarios

10:45 a.m.

Terror on the Highways

Presenter:

Jason Weimer, EMT-P

Western Oklahoma/Texas Director of Operations
Pafford Medical Services
Fort Worth, Texas

OBJECTIVES:

Upon completion of this educational activity, participants should be able to:

- Review the February 11th I-35 motor vehicle collision (MVC) and identify the challenges/barriers to effective triage within the conditions of the incident
- Identify tactics used to employ successful personnel management
- Explain the importance of responder safety and the steps taken to ensure a safe scene
- Discuss how the interdisciplinary approach to care is vital in multi-casualty incidents

11:45 a.m.

Orthopedic Trauma in Mass Casualty Incidents

Presenter:

Guadalupe de la Fuente, M.D.

Orthopedic Trauma Surgeon
Texas Health Harris Methodist Hospital Fort Worth
Fort Worth, Texas

OBJECTIVES:

Upon completion of this educational activity, participants should be able to:

- Review the orthopedic role in interdisciplinary approaches to care in MCIs
- Highlight primary considerations for orthopedic surgeons in MCIs
- List differences of orthopedic care in the community and during MCIs

1:45 p.m.

Operational Lessons for Fire/EMS and Hospitals

Afternoon Keynote Speaker:

W. Nim Kidd

Chief
Texas Division of Emergency Management
Austin, Texas

OBJECTIVES:

Upon completion of this educational activity, participants should be able to:

- Describe the event timelines, impacted areas, and overall consequences for all hazards
- Identify the unique operational challenges faced by fire/EMS agencies, rescue teams, and hospital systems during disasters and emergencies
- Analyze the most common medical needs that emerge as a result of disasters
- Apply key lessons learned to develop practical strategies for strengthening fire/EMS and hospital preparedness for future events

2:45 p.m.

From Chaos to Coordination: Planning for Patients and Providers

Presenter:

Stephan Epley

Manager of Safety & Emergency Management
Texas Health Harris Methodist Hospital Fort Worth
Fort Worth, Texas

OBJECTIVES:

Upon completion of this educational activity, participants should be able to:

- Discuss the importance of emergency management in healthcare
- Identify the risks and hazards hospitals face during emergency events
- Describe the importance of the interdisciplinary approach to emergency management and care
- Explain the clinical approach to the Healthcare Incident Command System (HICS)
- Discuss the importance of fostering interagency relationships
- Examine proactive training and preparedness activities
