Join from your phone — Dial 682-273-0674 Conference ID: 860 037 800#

In person: Armstrong Auditorium

Objectives: Upon completion of this activity, the participants should be able to:

- Describe the epidemiology of trauma-induced acute kidney injury and identify key demographic and clinical factors that increase risk among critically injured patients
- Evaluate as a interprofessional team the evidence early vs. delayed initiation of renal replacement therapy in major trauma and develop shared criteria to guide timing decisions across professions
- Explain the role of emerging biomarkers in early acute kidney injury detection and evaluate how these tools may improve diagnostic accuracy compared to serum creatinine alone

Target Audience: This interprofessional activity is designed for physicians and nurses caring for trauma patients. We also invite clinical staff to attend the conference.

Format: Didactic presentation with interactive question and answer session

Accreditation: In support of improving patient care, Texas Health Resources is jointly accredited by the Accreditation Council for Continuing Medical Education (ACCME), the Accreditation Council for Pharmacy Education (ACPE), and the American Nurses Credentialing Center (ANCC), to provide continuing education for the healthcare team.

Texas Health Resources is an approved CE provider for EMS Providers (DSHS Program Approval Number: 600827) through the Texas Department of State Health Services.

Designation of Credit:

Physicians: The Texas Health Resources designates this live activity for a maximum of 1 *AMA PRA Category 1 Credit*[™]. Physicians should claim only the credit commensurate with the extent of their participation in the activity.

Nurses: Texas Health Resources designates this activity for 1 contact hour

EMS Providers: Texas Health Resources designates this activity for 1 CE credit
