“Stroke Case Study - Extended Window Tenecteplase Administration: The Move to the Tissue Clock”

Wednesday, June 17, 2026, 7:30 p.m. to 8:30 p.m.

Presenter:

Janet Adams, M.S.N., R.N., SCRN
Stroke Coordinator
Texas Health Presbyterian Hospital Denton
Denton, Texas

Location: Join virtually on Microsoft Teams – [Click here](#) or scan QR code to the right

Objectives: Upon completion of this activity, the participants should be able to:

- Analyze patient presentation characteristics and advanced imaging findings to determine eligibility for extended-window tenecteplase administration using a tissue-based (rather than time-based) approach.
- Apply current evidence and clinical guidelines to select appropriate candidates for tenecteplase in acute ischemic stroke beyond traditional treatment windows, including risk–benefit considerations.
- Evaluate interprofessional roles in the rapid assessment, decision-making, and administration of tenecteplase within a tissue-clock model to optimize patient outcomes.

Target Audience: This activity is designed for nurses. We also invite pharmacists, physical therapists, paramedics, and all others to attend.

Accreditation: In support of improving patient care, Texas Health Resources is jointly accredited by the Accreditation Council for Continuing Medical Education (ACCME), the Accreditation Council for Pharmacy Education (ACPE), and the American Nurses Credentialing Center (ANCC), to provide continuing education for the healthcare team.

Texas Health Resources is a Texas CCAP Accredited Provider by the Texas Physical Therapy Association, APS#: 2611066TX.
